

Local Lines.

[From Saturday's Daily.]

Quail on toast for breakfast at the Mint restaurant to-morrow.

Hittell, the author of the Resources of California, has gone to Europe for a year's travel.

Mrs. Libada Castro, living on Monroe street, died suddenly last night, of heart disease.

Mr. Hitchcock, of San Francisco, a former Arizona and mine-owner in this Territory, is stopping at the Bank Exchange.

Hop culture is very profitable this year, as they bring from forty to fifty cents per pound. The Salt River valley should number this with her other industries.

D. C. Kling is in from the Kaku mountains. He is one of the owners of a group of mines in that region, the principal one of which is the Emperor. He is looking for men to work on his mine.

A call on Messrs. Demarbaix & Sanders, liverymen, today, found them going along quietly but surely. Their establishment is the former Monihan corral and stables and includes a general livery and feed business. They have some good driving stock and rigs of all kinds, hacks, buggies, rockaways, etc.

The report of the Arizona Star, that Col. Zabriske had declared against Porter and the Republican party, is promptly denied by the Citizen. Mr. Zabriske denies using the language imputed to him by the Star, or that he has in any way indicated a political change of mind.

Our worthy citizen, A. C. Baker, Esq., announces himself as candidate for District Attorney, subject to the decision of the Democratic county convention. Mr. Baker's well known ability as a lawyer should give him the nomination. When our Democratic friends win in elections we prefer to see such men as Mr. Baker in the winning places.

[From Monday's Daily]

Mr. Rowe, of the County Democratic Central Committee, has been in town for the past two or three days, looking up political matters and things in general. He returned to Vulture today.

There is no mistaking the fact that business is looking toward a revival and waiting to see what we will do the matter of a railroad. The availability of the place for smelting and reduction works has attracted attention.

Mr. Ronick and Mrs. Campbell are in from Centennial district and are full of hope for the future of that camp. Lately it has attracted much attention, and it is doubtful whether a greater body of good ore can be found anywhere in the Territory than in that district. Copper is the most abundant metal.

Mr. H. H. Travis came in yesterday from the Centennial district, where he has been investigating some of the prospects of that camp. Mr. Travis stands high as a metallurgist and mineralogist, and his opinion has been made the basis for some of the largest mining operations in New Mexico. He reports a splendid prospect for Centennial district.

The Gazette very flatly charges the Citizen or some person in Phoenix with lying. We know nothing about the telegram alluded to but we do know that we have heard the allegation of the Gazette very severely criticized, and by leading Democrats too, which is evidence that the telegram manufactured or real, was based on facts.

Mr. Travis, the mineralogist, makes a suggestion which is important to Phoenix and to some business man with capital. He suggests that Phoenix, being a central point for so large a mining region, should have test works where all sorts of metals could be assayed. Now it is necessary to send them all the way to Tombstone, San Francisco or Leadville, as there are no test works nearer than those points. Mr. Travis is so impressed with the necessity of such works here and the favorable view of the place that he may take a hand in the matter himself.

[From Tuesday's Daily.]

Freight teams are once more making regular trips from Maricopa in good time.

The Maricopa stage brought but one passenger this morning—a Chinaman.

We noticed yesterday afternoon an arrival of a lot of hardware at the store of Mr. Jacobs.

There is an increasing inquiry for real estate in town. Several strangers have been looking about during the past week.

The Herald office yesterday received a large supply of printers' stock, a considerable portion of which is designed for job work.

Phoenix doctors consider this place first-class to stay in but a poor place for business. Most of the deaths are caused by encephalitis.

Mr. Rosenthal, of the firm of Rosenthal & Kutter, left yesterday for San Francisco, to lay in a supply of goods for the fall and winter trade.

J. B. Kelley, of the firm of Kelley & Mayer, who has been absent in California for some weeks, returned last evening's stage. Mr. Kelley is talked of as the Republican candidate for Sheriff.

There will be about four candidates for nomination for Sheriff before the Democratic County Convention which meets on the 18th instant.

The public schools of the county are now opening in the several districts. All are supplied with teachers, so far as we have been able to learn.

A Mr. Clark, employed on a ranch southwest of town, died suddenly yesterday. Cause of death as yet unknown, but thought to be heart disease.

Mr. Alexander Poterle, late of Vulture, has established an assay office in town and solicits the patronage of those having work in his line. See his advertisement.

"In the Twilight," Garotte, by J. O'Neil, is one of the latest and most popular publications from the press of Sherman, Clay & Co., San Francisco. Price, 40 cents.

We would direct attention to the advertisement of W. C. Neidham's Extracts of Red Clover. They are said to be very efficacious in the diseases for which they are recommended.

Lumber is decidedly scarce in town just at present, on account of the railroad shanties. Our dealers in that article expect a large lot to arrive at once. The first load for some time came in on Sunday to Mr. Gregory's yard. There is much demand, especially among the farmers in the vicinity of town, for lumber and carpenter work. Several buildings and improvements are in contemplation for the next few months.

[From Wednesday's Daily]

"Ours coming."

"Ours come."

Don't neglect registration any longer.

Goldman received some brand new mowers and iron barrows to-day.

Hon. G. H. Oury arrived this evening by private conveyance from Globe.

A very dry crowd collected around the principal saloons today about mail time. Alas for the mutability of human events—they went away dry.

"Ours coming!" And his eyes snapped, his face wore a pleased expression, and he ran his hand up and down his throat. Nothing else ran down his throat today, however.

Three fine blooded hogs from the stock ranch of Mr. Wm. Niles, of Los Angeles, came in by express to-day, consigned to Hon. J. J. Gosper, Prescott.

The thermometer goes down to ninety now and we want wood at this office. Who will bring us a few loads on subscriptions, advertisements or job work? Don't all speak at once.

Pat Hamilton, of the Tombstone Independent, has challenged D. O. Dunbar, of the Republican, to a fight. Dunbar declines with thanks. Elsewhere we publish the correspondence.

We notice the name of our reliable friend Rothrock among the candidates for nomination for Treasurer, subject to the action of the Democratic County Convention. Rothrock would do the business up thoroughly and would be a responsible man in the position.

Stability in business makes business. The man, or firm, who advertises only once in a while advertises the fact that he is shaky. We believe in economy, but it is not real economy to show up your business fitfully. Solidity attracts attention and gives confidence and makes business.

We thought we were a "cowboy" and had been "scooped" last night when Pat Fitzgibbon, the new night watchman, stepped up to us with a big club. He only wanted us to "smile," however, and our nerves at once were calmed. Pat rather impressed us, however, that he is a "bad one," whom it won't do to fool with. Look out for him.

Pretty much the whole town seems to be on the qui vive for the festivities at Tempe on Saturday. That there will be an interesting time we have no doubt. Our Mexican population know how to do these things to perfection, and when such an affair is in the hands of such men as Messrs. Garcia, Imperial and Moreno, we know that it cannot be a failure.

Yesterday we were pleased by the call of one of our leading and most enterprising citizens—whose name we do not know that we have the privilege of using—for the purpose of talking over the business prospects of Phoenix, and especially our railroad prospects. He is in full accord with the Herald on these things, and his encouraging words and thoughtful, business-like suggestions inspire us anew and satisfy us that our ideas of the wants of Phoenix and our valley are not delusive but to the point. We would invite our business men generally to give us their ideas on these things.

"Ours coming," was the watchword passed along the line this morning, and the leaders of the "un-terrified" hired every available rig, forgetting the horse, to go out and meet the Great Incompetent. The reception committee bore solemn countenances, becoming a funeral procession, for they all seemed to realize that Oury was dead, so far as the Congressional fight is concerned. After enjoying the belly ache of the all life fields outside of town for half an hour the committee slipped in by the back streets, considerably crestfallen, each denying that he was looking for Oury. Cox and Rosson claimed to have gone out to see a patient; Mosher went out to see Bwyer's ranch; Lemon was only taking a morning ride. The funeral procession felt that it was badly sold. On the 7th of November Oury will be late again.

[From Thursday's Daily.]

Delegate Oury will be in Phoenix for a few days.

A positive cure for dyspepsia—Damiana Bitters.

Remember that you must register before you can vote.

Drinking Boon Beer, Germania Beer Hall.

Messrs. Carpenter and Bishop are in today from Tempe.

Sealing wax for fruit cans at Tibbodo's Drug Store. 221st.

Just arrived—a fresh lot of E. M. H. Cigars at Rothrock & Caltons.

A very desirable dwelling on Washington street is for sale or rent. See advertisement.

THE MEXICAN REMEDY for diseases of the Kidneys and Bladders is Damiana Bitters.

The public schools will open with Prof. Frambes as Principal, on Monday, the 18th inst.

Humphrey's Homeopathic Specific Medicines at Tibbodo's Drug Store. 221st.

Lewis Baily, a former resident of Phoenix, is in town and will remain a few days.

Beautiful single stone diamond rings for \$20 at Uncle Harris', 221 Kearny street, San Francisco.

Mrs. E. Decker, Jefferson street one block south of Wm. B. Hooper & Co's, is prepared to take in plain sewing of all kinds. Call and see her. aug 17-1m*

Call and see samples of Niles' fine hogs and poultry in the corral back of the Herald office before they are forwarded to Prescott.

WANTED.—About \$10,000 cash to be placed against suitable real estate for hotel purposes, in one of the growing cities of Arizona. Address his office for particulars. au28if.

The senior member of the Herald firm is located at Prescott. He may be found at Marshall Dale's office, Marina street.

Floreston Cologne is grateful to invalids, as it is refreshing without the sickening effects of most perfumes.

Gen. Crook has left Prescott for southern Arizona via Fort Verde, Tomba Basin and San Carlos Reservation. He goes mule back, accompanied by aid-de-camp Bourke.

For health, strength and vigor, drink Damiana Bitters.

Mr. W. H. Thomas came in today from the Phoenix mine, Cane Creek. He reports that section flourishing and the Phoenix showing up splendidly.

The Herald has received the thanks of citizens for the article "Our Opportunity," published yesterday. In that article we but expressed our convictions.

From bills printed at the Herald office we learn that auctioneer E. W. Wiley will sell on Wednesday, Sept. 20th, at the ice house in Phoenix, a complete set of well-binding tools with a Tiffin horse power complete.

The Herald has no traveling or local agents. No one is authorized to do business for it in any way whose name and connection with the paper is not announced in our list of agents.

Captain Jacob Schmidt, of Thompson's Island, Staten Island, New York, suffered with severe rheumatism for many years. He used St. Jacobs Oil with splendid effect, and adopted it as a family medicine.

The Band gave Delegate Oury a nice little serenade last evening. Mr. Oury responded in a few kindly remarks without reference to political matters at all, and was followed by Judge Cox in a few words of welcome on his visit to Phoenix, which has one been his home. The affair was quiet, very quiet.

Remember that the only place in the Territory where you can obtain the Hodder Patent Blotter and Bill, Letter Head and Statement Tablets is at the Herald office. Nothing in that line equals them in convenience.

George Hamlin, proprietor of Hamlin's Stables and Corral, showed us three very fine colts a few days since. Two of them are "Dexter" colts and present the usual excellent points of that stock. The third is a "Sacramento" colt, foaled last spring, and is a perfect little beauty. He has been offered \$150 for it, but refused the money.

Irrigate the Orange Trees. Experience has proven that if deciduous fruit trees are kept growing too late in the fall there is danger that the tender shoots and tender ends of limbs may be cut by the frost and the trees injured. Hence it is best that irrigating such trees cease about the 1st of December, to give the wood time to mature and become hard and frost-resisting. Those who were not acquainted with evergreen trees, as the orange and lemon, very generally made the mistake of treating those trees in the same manner they had been accustomed to treat deciduous trees. Under this treatment it was found that cold, frosty weather was killing, barking the trees badly, and great fears were entertained that orange and lemon culture would at least prove but a partial success in northern and central California. When, about two years since, it was suggested that the nature of evergreen trees being different from that of deciduous trees, they required different treatment, and that they should be kept growing through the fall and winter, the suggestion was received with incredulity by many of our best nurserymen. Experience, however, in this city and vicinity, has proven the suggestion to be founded in the correct principle. The orange and lemon trees are found to withstand cold frosts and cold winds much better when the sap is in rapid and vigorous circulation. At this time these evergreen citrus trees are growing more rapidly than at any other time within the year. The best way is to keep up the irrigation and growth.

ECONOMY IS WEALTH.

PILES! Piles!

Sure Cure Found at

Last! No One Need

Suffer!

A sure cure for Blind, Bleeding, itching and Ulcerated Piles has been discovered by Dr. William (an Indian remedy) called Dr. William's Indian Pile Ointment. A single box has cured the worst chronic cases of 25 or 30 years standing. No one need suffer five minutes after applying this wonderful soothing medicine. Lotions, instruments and electrics do more harm than good. William's Ointment absorbs the tumors, allays the intense itching, particularly at night after getting warm in bed, acts as a poultice, gives instant and painless relief, and prepared only for the itching of the private parts, and for nothing else.

Read what the Hon. J. M. Coffinberry of Cleveland says about Dr. William's Indian Pile Ointment: "I have used scores of pile cures and it affords me pleasure to say that I have never found anything which gave such immediate and permanent relief as Dr. William's Indian Pile Ointment."

For sale by all druggists or mailed on receipt of price, \$1.00. McCarthy & Osborne, Wholesale Agent Denver, Colorado.
